Date of birth: 31/10/1997 | **Nationality:** Spanish | **Gender:** Male | **Phone:** (+34) 654933836 (Mobile) |
Email address: jonathan.munnozmorales@gmail.com | **Address:** Spain (Home)

ABOUT ME

I am a very proactive person, so much so that I'm always on the lookout for new versions of component libraries so I can use them and work more efficiently. I take the initiative: if a project needs a new feature or a fix for an existing one, I like to report those issues because I take an interest in the project as if it were my own.

WORK EXPERIENCE

23/10/2023 - CURRENT - CHICLANA DE LA FRONTERA, SPAIN

FULLSTACK DEVELOPER EMPATHY.CO

- As a full-stack developer, I developed a proof of concept (PoC) for an application based on the company's requirements, which was later acquired.
- I led a team of 4 people to develop a proof of concept (PoC) that would later be sold to one of the company's external clients.
- I worked as a full-stack developer using Java, Spring Boot, Elasticsearch, Vue, React, Tailwind, CSS, and other languages and frameworks.
- I have worked as a front-end developer using Vue, React, Tailwind, CSS, Nuxt, and other tools.
- I documented, tested, and developed more than four projects that I worked on concurrently, applying Agile methodologies such as Scrum for task execution and work management.
- I have experience with tools such as Jira for work organization and Confluence for internal company documentation.

10/09/2020 - 12/08/2021 - CÁDIZ, SPAIN

PRIVATE TUTOR NONE

I taught several students in my grade level in various programming classes, where I instructed them and helped them grow professionally over the course of a year.

EDUCATION & TRAINING

13/09/2017 - 22/06/2022 - CÁDIZ, SPAIN

BACHELOR'S DEGREE IN COMPUTER ENGINEERING - UNIVERSIDAD DE CÁDIZ

- I learned the logical principles of programming, leadership, and teamwork, among other things.
- I gained knowledge of programming languages ranging from low-level languages like C to languages such as Python and Java, among others.
- On several occasions, I led workgroups to carry out projects in different
